

FOR THE NEW STAIR TO WORK, WE NEEDED TO MOVE THIS WALL 22 INCHES. WE BROUGHT IN A STRUCTURAL ENGINEER TO WORK WITH US TO MAKE IT HAPPEN.

PULLING BACK THE LANDING ALLOWS FOR A DEEPER VAULTED ENTRY, AND MORE ROOM FOR THE RIGHT SIZED LIGHTING FIXTURE. WE ALSO CENTERED THESE DOORS OFF OF THE OPENING TO CREATE A FEELING THAT THE HOME IS DEEPER AGAIN LIKE WE DID DOWNSTAIRS.
